

NorthWind Traders(solve this business questions using Excel)

1. Calculate the total sales (revenue) for each category of products.
 2. Determine which customer has placed the highest number of orders.
 3. Calculate the total sales generated by each employee.
 4. Show the trend in sales over time.
 5. Calculate the average time it takes to process an order from the order date to the shipped date.
- Also solve the following with PowerBI; building a top-level KPI dashboard for the executive team. Its purpose should be to allow them to quickly understand the company's performance in key areas, including:
 - Sales trends
 - Product performance
 - Key customers
 - Shipping Cost
